

Experience **Piping Designer**

June 2005 – Nov. 2009 **Wink Companies, LLC** **St. Rose, LA**

- Employed the use of Bentley AutoPLANT, AutoCAD and LFM Server to develop complete design packages.
- Developed and deployed an Access database to track progress of all members of the project team.
- Used my Windows command line skills to locate and compile lists of client files scattered across company network.
- Trained employees to more efficiently utilize AutoCAD and navigate a refinery with drawings and equipment locations.

CAD Draftsman

June 2005 – Nov. 2009 **Wink Companies, LLC** **St. Rose, LA**

- Wrote a series of Hot Keys for PCMS that dramatically reduced total time for linking database to the drawings.
- Implemented a standardized CAD environment for new employees and streamlined setup process that cut setup time from a half an hour to five minutes.

Fire Protection System Designer

June 2000–June 2005 **Merit Sprinkler Company** **Kenner, LA**

- Utilized NFPA to design hydraulically calculated fire protection systems complete with reflected ceiling plans, site plans, riser details, pump rooms, full height cross sections and PDF equipment data brochures.
- Instructed employees on efficient use of AutoCAD.
- Programmed AutoLISP commands, build custom text styles, custom dimension styles, block libraries, access databases, repaired computer hardware and resolved software and network problems.

CAD Draftsman

Sept. 1996–June 2000 **Davies Engineering, Inc.** **Kenner, LA**

- Analyzed new software prior to company implementation, wrote instruction manuals and trained employees on software.
- Solved problems with operating systems and other programs used in the office including AutoCAD.
- Developed standards, procedures and AutoLISP commands to speed progress and improve standardization.
- Received supervisory and extensive training on GTXraster CAD.

CAD Draftsman

July 1996–Aug. 1996 **Lucien C. Gassen & Associates** **Luling, LA**

- Participated in fieldwork with survey crew and created plot plans according to parish specifications.
Developed and implemented AutoLISP commands to improve productivity.

Education **Universal Technical Institute**

Phoenix, AZ

June 1995–June 1996

- Associate of Occupational Studies in Computer Aided Drafting
